

# BOOSTER DOSE FACTS

## DO I STILL NEED TO GET A BOOSTER DOSE?

As of March 2022, proof of vaccination is no longer required in most public spaces. Does that mean I don't have to get vaccinated?

While proof of vaccination is not required, it does not mean people do not need to get vaccinated for a third time.

It is recommended that all individuals that are eligible to get vaccinated do so. It is especially important to get the booster dose to increase vaccine effectiveness.
